AESTHETIC & ANTI-AGING MEDICINE CONGRESS & EXHIBITION
Aesthetic Dermatology and Surgery, Preventive and Anti-Aging Medicine
25-27 SEPTEMBER 2014
SINGAPORE, SANDS CONVENTION CENTER

THE ASIAN EVENT FOR “GLOBAL ANTI-AGING MANAGEMENT”
Dear professionals of Aesthetics and Anti-aging Medicine,

Since Informa Exhibitions successfully launched Aesthetics Asia in 2009, we have seen consistent growth in the aesthetic market not only in Singapore, but also in Asia as a region.

To expand this event even further in the global market, EuroMediCom, part of Informa group and world leader in Aesthetic and Anti-aging medical events, has joined hands with the Aesthetics Asia team in Singapore to bring its international know how and network to add, alongside Aesthetics Asia, a joint meeting: the AMAC (Aesthetic and anti-aging Medicine Asian Congress) as a geo clone of the largest event worldwide, the AMWC (Anti-Aging Medicine World Congress) gathering in Monaco with over 7,000 physicians and 250 companies from the global Aesthetic and Anti-aging Medicine industries.

In this perspective, it is our pleasure to introduce for 2014 the joint meeting of Aesthetics Asia and the 1st Aesthetic and anti-aging Medicine Asian Congress (AMAC).

This 3-day event will be taking place from 25th to 27th September 2014 at the world renowned Sands Expo & Convention Center, Marina Bay Sands, Singapore.

Aesthetics Asia & AMAC 2014 will continue in the footsteps of Aesthetics Asia to maintain its position as the landmark aesthetics event in Southeast Asia, by continuing to dedicate our energy in all aspects of this rapidly expanding field whilst showcasing of the latest technologies and techniques to an audience that matters.

Welcome to Singapore!

Yours sincerely,

The Scientific and Organizing Committee

AESTHETICS ASIA & 1ST AMAC 2014
Aesthetic Dermatology, Preventive and Anti-Aging Medicine

INTERNATIONAL ACCREDITATION: 18 CME CREDITS
The Aesthetics Asia & 1st AMAC is accredited by the European Accreditation Council for Continuing Medical Education (EACCME) to provide the following CME activity for medical specialists. The EACCME is an institution of the European Union of Medical Specialists (UEMS), www.UEMS.net. The Aesthetics Asia & 1st AMAC is designated for a maximum of (or 'for up to') 18 hours of European external CME credits. Each medical specialist should claim only those hours of credit that he/she actually spent in the educational activity. Through an agreement between the European Union of Medical Specialists and the American Medical Association, physicians may convert EACCME credits to an equivalent number of AMA PRA Category 1 Credits™. Information on the process to convert EACCME credit to AMA credit can be found at www.ama-assn.org/go/internationalize.

Live educational activities, occurring outside of Canada, recognized by the UEMS-EACCME for ECMEC credits are deemed to be Accredited Group Learning Activities (Section 1) as defined by the Maintenance of Certification Program of The Royal College of Physicians and Surgeons of Canada.

PRE-Congress Course on Facial Anatomy Aesthetics

Pre-Congress course on Facial Anatomy Aesthetics

Specific Asian Anatomical Features

The course is constructed based on the SAFE concept: Scientific Anatomy Fillers Education/Experience. This course is organized with a scientific approach and around the essential facial anatomy covering the main six areas of the upper, middle and lower face. The course will start with a comprehensive review on clinically relevant information on injectables, including injection techniques (products’ protocols up to market updates). Individualized approach and clinical relevance are the cornerstone of didactic sessions. Simultaneous presentation of the relevant anatomical features of the human face include: facial mimetic muscles, SMAS, fat compartments, blood vessels, nerves and the various danger zones of the face.
