"This meeting will offer an opportunity to **exchange experience and knowledge** between participants.

We will collaborate with our colleagues and the **experts from Europe and Asia**, and the session will cover both clinical and scientific aspects.

We will incorporate topics on **pathophysiology of atopic dermatitis, recent evidence on non-systemic and systemic therapies, and comorbidities associated with AD.**

We will focus on the **optimal management** under consideration of **skin of color** and **disease phenotype in the Asian population**. We will also share the **latest treatment guidelines and disease assessment** in this field."
